### International AED Database

The ILAE provides this data as a resource for your use. It has been compiled over the years and as new pharmaceuticals are introduced into our countries, the data may become outdated. Since this database may contain inaccuracies, outdated information and omissions, this information should not be used to make treatment decisions without independent confirmation from an official resource.

This database is considered an ongoing project and every attempt will be made to ensure that the data is current and correct. Portions of this international antiepileptic drug list is derived from Martindale - *The Complete Drug Reference by Pharmaceutical Press*, a division of the Royal Pharmaceutical Society of Great Britain [www.medicinescomplete.com](http://www.medicinescomplete.com).
